

# Take A Stand for Less Stress

## Anti-Fatigue Mats

Prevent body aches associated with standing all day. Anti-fatigue mats offer a safe, non-slip surface that reduces the risk of falls and combats fatigue. By combining softness with support, the mats allow proper distribution of body weight while reducing impact on joints. As the foot presses into the mat, the matting pushes back to increase blood flow. The result: less stress, greater comfort, and increased productivity.

- ▶ Impact-absorbing base foam
- ▶ Non-slip surface reduces risk of falls
