

PRODUCT SPECIFICATION REPORT

Glove is a ready-to-use, water-based, soil skin shield which prevents the penetration of grease and soil into the hands

GLOVE™
Soil Skin Shield

PROD. #3389

FEATURES/BENEFITS:

Protects	Acts as an invisible glove which prevents grease and other soils from penetrating into the natural pores and creases of the skin
Easy Clean-Up	An application on hands will allow for quicker clean-up after dirty jobs
Reduces Irritation	Contains a unique blend of emollients and barrier agents to protect skin against irritation from gasoline, cleaners, paint solvents, and other common chemicals

NOTE: Contains a silicone compound – not recommended for paint (body) shops.

APPLICATIONS:

Apply Glove at the beginning of the day and after washing hands. Recommended to service stations, machine shops, auto repair facilities, car & truck washes, print shops, landscaping services and cleaning services.
