

Nupla Sledge Hammers

Industrial, MRO, Transportation, and Government Use

Full range of sledges with Drop Forged High Strength Steel Heads
 Weight Range from 2.5-16lbs with variety of Handle Lengths
 Pulltruded Fiberglass Handles with Super Grip (SG)
 Handles are 4x stronger than wood.
 Handles have 30% more shock absorption than steel handle sledges
 TAA Compliant Materials for US Government Bids

Applications include:

- General Factory Use
- Maintenance, Repair, Operations (MRO)
- Transportation, including Track Maintenance, Rolling Stock Repair, etc.
- Security, Law Enforcement, Forced Entry, etc.
- Demolition

Product Features include:

- High Carbon Content Steel Heads
- Precision Forged and Heat Treated Metallurgy to minimize striking face chips or chards
- Designed and Tested to ASME B107 Standard
- Durable and Safe Striking Heads with polished chamfered face
- Matched Handle Lengths of Durable Pulltruded Fiberglass
- Super Grip (SG) provides secure, ergonomic grip even when wearing gloves
- Fiberglass Handles provide high strength and superior shock absorption in use, reducing user strain

Part No.	Description
45NA30	2.5 lbs HEAD 14" Fiberglass Handle SG Grip
