Lockout Tagout Devices and Kits

For Compliance with OSHA 1910.147

- Features a variety of components to build a comprehensive Lockout Tagout program to help you stay safe and be in compliance.
- Includes Lockout locks, hasps, circuit breakers, and lockouts for gate valves, large plugs, small plugs, cylinders, and wall switches.
- Easy-to-use components made in the U.S.A. of durable materials.
- Look for other Lockout Tagout products including lockout tags, AC sensors, stations, and kits.

Created with pride by Americans who are blind.
