

# 36" Drain Handle

Series 6036DRN

**REMCO**

## Hanging Hole

Hole allows for an easy storage option that keeps drain tools separate from food-contact tools

## Honeycomb Construction

Stiff and lightweight, handles can withstand harsh treatment

## Hygienic Euro Thread

Thread is specially designed with shallow, hygienic grooves that prevent walk-off

Remco's drain handles are durable, cost-effective solutions for keeping drains clean without compromising the hygiene of standard cleaning tools. Since drains tend to harbor large amounts of bacteria and microbes, many HACCP plans call for separate tools. Remco's drain handles feature a chemical-resistant coating and honeycomb construction to withstand the harsh treatment necessary to clean drains.

## 36" Drain Handle

6036DRN

Available in white only

Longer drain handles are ergonomically friendly and can stand up to harsh chemicals used in the cleaning process, as well as the pressure workers place on the tool to get drains clean. The dedicated drain handle helps minimize cross-contamination.

### Specifications:

Length: 36.1"

Width: 1.3"

Height: 1.3"

FDA-Compliant Raw Material: No

Material: Fiberglass

Unit Weight: 0.84 lbs.

### Colors

When ordering, add the color digit to the base part number to denote color.

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
