

Typical Applications

- Ideal for fabricating structural steel or layout work where marks are required to bleed through a primer coat covering the marks

- Marks bleed through when painted over with oil/solvent based paints and primers
- Makes permanent marks on plastic, metal, glass, ceramics, and most non-porous surfaces.
- Fast drying permanent ink marks on almost any surface

- Can be used for identification purposes
- Chisel tips are replaceable to assure complete use of paint in each marker
- Valve action mechanism prevents ink in barrel from drying when cap is left off
- Threaded barrel allows the marker to be screwed into a jig or apparatus
