

HARD FLOOR CARE & MAINTENANCE

Maintaining the cleanliness and appearance of your floors is extremely important to how your guests, customers and employees perceive your facility. Your goal is to keep them satisfied and safe while maintaining your significant investment in your flooring. Grainger offers a full range of equipment, supplies and cleaning products for you to develop your cleaning program and meet your goals.

To build your floor maintenance program you should consider the cleaning task and the type of flooring. These charts provide some of the most common approaches to maintaining and restoring your investment. Keep in mind, there are a variety of combinations of equipment, chemical and floor manufacturers recommendations to consider. Ideally the program you choose will maximize your efficiency and reduce the total cost of maintaining your investment.
