Items available through Grainger Sourcing only.

Lightweight and portable, the built-in hand grips provide easy room-to-room movement for temporary work surface or banquet use.

The IndestrucTable is also available in a 42″ round version, with Oak and Granite inlays. It has the same advantages as our rectangular tables, including recessed leg cavities for flat stacking.

Legs fold into recessed cavities allowing tables to stack flat, providing maximum storage capability.

 Made in USA
