

# PIG® Sheen Clean® Oil-Only Boom

#BOM600 - 5" x 10' • Absorbs up to 6 gal. per boom • 4 booms

Cleans up the thin, oily residue floating on large bodies of water that other absorbents leave behind.

- Proprietary filler blends high-capacity recycled cellulose with a copolymer that pulls in thin, filmy sheens of oil
- Ideal for long-term deployment to remove sheen after oil-based spills or absorb oil residue on large bodies of water; also effective in retention ponds, catch basins and tanks
- Tough outer mesh is UV resistant for long-term outdoor use without degradation; lets fluids easily pass through to filler material
- Rope running along length of boom withstands up to 400-lb. loads, adding strength for deployment and retrieval
- Spunbond polypropylene skin is UV resistant up to 12 months; meets NFPA 99 standards for static decay
- Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without taking in a drop of water
- Durable steel clips and rings allow you to link booms together
- Not recommended for use with acids, bases or other corrosive liquids

Always in stock. Ships within 24 hours.

ITEM: BOM600 - Pg 1 of 2

# BOM600 Specifications

<b>Color:</b>	White
<b>Dimensions:</b>	ext. dia. 5" x 10' L
<b>Fluids Absorbed:</b>	Oil-based Liquids But Not Water
<b>Recycled Content:</b>	90% Post-Consumer Recycled Cellulose Waste
<b>Absorbency:</b>	Up to 24 gal. per bag
<b>Absorbency per:</b>	Up to 6 gal. per boom
<b>Sold as:</b>	4 booms per bag
<b>Weight:</b>	30 lbs.
<b># per Pallet:</b>	12
<b>Composition:</b>	Skin - polypropylene Filler - hydrophobic cellulose/oil-absorbent co-polymers proprietary blend
<b>UNSPSC:</b>	47131907

# Technical Information

**Warnings & Restrictions:**

Corrosive Liquids Notice  
Not recommended for acids, bases or other corrosive liquids.

**Regulations and Compliance:**

40 CFR 122.26 - When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.

40 CFR 112.7 - SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.
