PVA COOLING TOWEL (CT):

A hyper-evaporative material that's the latest in cooling innovation, this Poly Vinyl Acetal (PVA) material retains water while remaining dry to the touch to provide sweet cooling relief on those sweltering days. Flat earth society approved.

BENEFITS TO YOU:

// LIGHTWEIGHT AND LOW-PROFILE

Unlike traditional cooling products that use acrylic polymers, the PVA material eliminates the "sausage" look and bulkiness.

// NO RESIDUE

Forget the slimy feel that can come with traditional cooling solutions, the PVA material doesn't turn into a gooey mess.

// ACTIVATES QUICKLY & EASILY

Simply soak in water and within minutes you can enjoy coolness for hours. Perfect to have on-hand if a worker displays symptoms of heat stress.

// MINIMAL MAINTENANCE

Reusable, simply re-soak and you're good to go. Machine washable.

// IDEAL HEAT STRESS SOLUTION

These products aid in keeping core body temperatures in check, resulting in more comfortable and safe working conditions in high heat environments.

// UNIQUE TO MARKET:

You'll only find these patented solutions from Ergodyne Tenacious Work Gear®.
