## PALM TERMINATION TOOL

Use Leviton's Palm Termination Tool to quickly and easily punch down connectors at the jobsite. This new tool, designed with contractor input, offers an ergonomic comfort grip, increased connector stability, and integrated holes that allow rack mounting of the Palm Tool for QuickPort panel terminations. The Palm Tool is compatible with all CAT 6A/6/5e and standard QuickPort A/V connectors. Order part number 47615-PTT or see page A66 for more information.

## JACK RAPID™ TERMINATION TOOL

Improve your installation time and reliability with the Fluke JackRapid Termination Tool. This handheld tool seats and cuts all eight wires with a single squeeze of the hand. Model number JR-LEV-1 supports 5G108 connectors, while model number JR-LEV-2 supports 6A10G, 61110, and 5G110 connectors. Contact your local Fluke distributor to order.
